Website Development (Flask, Streamlit) 

Problem-Solving & Cross-Functional Collaboration 

Technical Support & Helpdesk Services 

## Education

**Bachelor of Commerce Honours Degree in Data Science and Informatics**  
Midlands State University, Gweru

Sep 2021 - Jun 2025

Recent Data Science graduate with strong expertise in statistical analysis, machine learning, and data-driven decision-making. Proficient in Python, R, SQL, and advanced Excel, with practical experience in data cleaning, predictive modeling, and visualization using Power BI and Tableau. Adept at transforming complex datasets into actionable insights to support strategic objectives. Highly motivated, detail-oriented, and eager to apply analytical skills, technical proficiency, and innovative thinking to solve real-world challenges and drive business value.

### PROJECTS

Final Year Project: Churn Prediction in Telecommunications

Midlands State University

Feb 2025 – June 2025

- Developed a machine learning model using Random Forest to predict customer churn.
- Achieved over 85% accuracy using scikit-learn and pandas.
- Visualized results using matplotlib and seaborn.
- Presented findings to faculty and peers.
- <https://github.com/AshmoreT/customer-churn.git>

### Inventory Management System

- Built a Python-based inventory management tool for tracking and reporting stock levels.
- Integrated database solutions for efficient data storage and retrieval.
- <https://github.com/AshmoreT/inventory-management.git>

### Certifications

- Diploma in Computer Networking -Alison
- Machine Learning and Advanced AI Techniques-Alison
- Diploma in Advanced SQL Server-Alison

## Employment

### Attachee

Aug 2023 - Jul 2024

Masvingo City Council, Masvingo

Assisted in collecting, organizing, and analyzing municipal data to support service delivery and urban planning. Participated in digitization projects, including database management and system updates. Developed data visualization reports using Excel and Python to aid decision-making. Collaborated with IT and planning departments on various data-driven initiatives to improve operational efficiency.
